

I think New Jersey should keep the DO Not Call Law as is. I work all day, but it seems that whenever I'm home sick, the phone starts ringing at 9:00 AM with telemarketers, not to mention ringing about 7PM right after I get home from work and am preparing dinner. And many of them do not take "NO" for an answer and keep trying their persuasion techniques. Consumers should have the option as to whether or not they want to be called by telemarketers.
